#### MARVIN'S REMARKS

46 years in the auction business has gifted us with selling auctions in a large range of circumstances. Sometimes hard work and attention to quality is just not enough. One of the top dairy herds in the State was milked on this farm but the family way of life on the dairy farm has drastically changed and the dairy herd has been sold and now the equipment must be sold by agreement with the lender and owner. Equipment has been regularly maintained and mostly under roof. One person's loss is another person's gain and we believe this will be an opportunity to purchase equipment suitable to most any farming operation.

**This will be an absolute auction with the possible exception of the 7088 combine power unit.**

#### VIEWING OF ITEMS – DO NOT GO TO THE FARM

All equipment will be moved into our pasture and will be available to view starting Monday June 24th. There is livestock in the pasture so gates are locked. We recommend all items be removed sale day or very shortly thereafter so attend prepared.
